Goat-Grain Winter-Lined Driver Gloves

#378GKTTL

Goatskin is often referred to as nature's strongest leather. It has very high tensile strength and abrasion-resistant properties, yet is lightweight with excellent softness. Because of this high strength-to-weight ratio, our Endura® Goatskin gloves are much tougher and more durable than their suppleness leads you to think. Great for handling building materials, assembly work, farming, municipal work, utilities and metal fabrication.

Our winter-lined all-leather version offers great dexterity with incredible warmth. Interior surface is brushed fleece-jersey. Glove is fully lined with 100 g/m² genuine Thinsulate™ for exceptional winter warmth.
