Deluxe Winter Lineman Gloves

#365DLXFTL

3M
Thinsulate™
INSULATION

These deluxe lineman gloves are made with select heavyweight 3½ oz grain horsehide leather that has been treated with a fluoro-chemical water-repellent emulsion for excellent water, oil, and stain-repellent properties. (The soft, breathable qualities of the leather are not affected by this water-repellent treatment.) Other special features include our performance thumb/palm patch, which reinforces critical-wear areas with a double layer of leather. Sewn across the back of the leather cuffs are heavy-duty 2" high-viz fluorescent-yellow fabric strips and retro-reflective silver strips for greater nighttime visibility. Sewn with Kevlar® thread for extra seam strength.

This style is Thinsulate™ lined for a high warmth-to-thickness ratio, making them perfect for winter or any cold working conditions.

Available with 2" cuff (#365DLX2TL) sizes M - XL.
