

Cut-Resistant

HyFlex® 11-500 Glove

Performance And Safety Combined.

Cut protection and comfort.

Working with sharp objects requires a glove workers can count on for safety and dexterity. Made with DuPont™ Kevlar® and Ansell's unique foam nitrile, the HyFlex® 11-500 glove combines superior cut protection with advanced ergonomics for industry-leading performance.

Unique characteristics for balanced performance.

Knitted with DuPont™ Kevlar® yarn, the HyFlex® 11-500 glove offers flexibility, comfort and EN 388 Level 2 / ANSI Level 2 cut protection. The extended cuff provides additional protection around the wrist. Combined with the foam nitrile palm coating, this glove delivers a balance of cut, comfort and protection.

Outstanding Product Attributes & Benefits

Ergonomic designed DuPont™ Kevlar® stretch liner with spandex

- Provides "second skin" closeness, reducing risk of snags and cuts
- EN 388 Level 2 / ANSI Level 2 cut protection
- Ability to handle sharp parts with confidence, increasing worker output and security
- Superior fit for greater comfort, dexterity and flexibility
- Increases worker acceptance and safety compliance
- Glove molds to hand, reducing fatigue for all-day comfort
- Available in a wide range of sizes to protect more workers (6-11)

Black foam nitrile coated palm

- Enhances grip in light oil conditions with good abrasion resistance
- Silicone-free and latex-free for worker and product protection
- Boosts quality assurance and process management efficiencies
- Hides soil providing longer wear and reducing over-all replacement costs
- Machine launderable with minimal shrinking and good recovery

Industries

- Aerospace/Transportation
- Automotive
- Construction
- Glass Handling
- Paper Manufacturing
- Plastics/Injection Molding
- Public Utilities
- Metal Fabrication
- Tier One
- White/Durable Goods

Applications

- Carpentry, HVAC, pipefitting
- Final assembly
- Glass installation
- Maintenance operations
- Sheet metal press, small part stamping
- Small part handling
- Small scale stamping & assembly
- Wiring

Product	Type	Sizes	Packaging
11-500	Stretch Kevlar® liner, foam nitrile palm coated, black	6 (XS), 7 (S), 8 (M), 9 (L), 10 (XL), 11 (XXL)	144 Pairs / Case

Ansell HyFlex® Line

The HyFlex® 11-500 glove is part of the HyFlex® Cut-Resistant range. The HyFlex® glove line is comprised of four premium performance ranges: Precision, Cut-Resistant, Oil-Repellent, and Specialty products. Products that provide "cut resistance" and "cut protection" do not completely prevent or eliminate the potential for cuts and punctures, and are not intended or tested to provide protection against powered blades or other sharp or rotating equipment. Users are encouraged to always use caution and care when handling sharp metals. For a comprehensive review of our Precision Protection™ line visit www.ansellcanada.ca or call 1 800 363-8340 and speak to a customer service representative.
