TAC-300Y

**Tactical Metal Flashlight**  
**Non-Rechargeable**

This compact non-rechargeable metal tactical flashlight uses a CREE® LED rated at 180 lumens that works in conjunction with a high-efficiency deep parabolic reflector to create a usable beam rated at 190 meters. The tail-cap switch provides momentary or constant-on functionality. Power comes from a pair of included CR-123 Lithium batteries.

TAC-350B

MODEL	Colour
