M18™ RADIUS™ Compact Site Light w/Flood Mode

★★★★★ 4.7 (3) Write a review

TASK AND AREA MODES, LESS TO CARRY. The M18™ RADIUS™ Compact Site Light w/ Flood Mode offers the user two lights in one for area lighting and tasking lighting. With 2,200 lumens of output in area mode for illuminating large work areas and 1000 lumens of flood lighting for task situations there is no application this light can't handle. This light offers up to 18 hours of runtime with an M18™ XC 5.0 battery and has the option to be plugged in using its AC inlet for extended runtime. Its compact size allows users to take this site light on and off the jobsite effortlessly and its 4-1/4" metal hanging hook allow users to hang this light from above for overhead lighting situations. The

The fact it hangs upside down is great. This light is very useful & I highly recommend it to anyone thinking about buying any kinda light for a job site.

Purchased As Gift: No

Yes, I recommend this product.

Exceeded expectations. I plan in buying one more.

I work in basements and normally use multipul 3000lumen spot lights to light up our site once it gets darker out. Been hesitant to buy this light as its only 2200 lumens but after receiving it as a gift and trying it out onsite I found the 360 degree output does a much better job lighting the area than even two of my 3000 lumen spot lights. I plan on buying one more for my larger projects.

Yes, I recommend this product.

Yes I would buy this again unless I upgrade

Works perfectly has not fallen short for anything I needed a light for. I gave 4 stars the 1 and thing i needs is to be able to changer the battery while plugged in.

Yes, I recommend this product.
