

#S13GPPU

Superior Touch®

13-Gauge Low-Linting Polyester
String Knit with Polyurethane Palm Coat

#S13WPPU

#S13GPPU

Superior Touch® fine-gauge polyester gloves offer excellent comfort and touch sensitivity, while polyurethane palm coating provides an excellent grip. Gloves are knit from a non-linting filament polyester, while palms have very low particulate shed. Gloves are excellent for use in any fine assembly work where contamination is an issue, and protect hands from nicks and minor cuts, while allowing for a bare-hand feel during tasks where it is essential. Great value in a highly dexterous glove with great touch sensitivity for fine-motor tasks where contamination is a concern.

Available in white (#S13WPPU)
