BMP®61 LABEL PRINTER

PERFORMANCE That Matches Your Own

Brady's BMP®61 label printer is designed for quick and efficient identification of wires, cables and components.

- Simple user interface with easy menu, cursor and label navigation
- Large, color touch-screen display to see exactly what the label is going to look like before it's printed
- Die-cut, continuous & custom label supplies up to 2" wide (51mm)
- Data connectivity with a USB 2.0 port (Type A and B) and a USB flash drive users can save, import and export label files, lists and graphics
- Industrial, rugged design with rubber bumpers and tested to survive a four-foot drop
- Power options include rechargeable NiMH battery or AC power to keep you printing wherever you go

Brady Workstation Apps

Brady has revolutionized its label creation software by now offering apps specific to your projects.

Once the free Brady Workstation is installed on your PC, you can then download a variety of free or paid labeling apps including Custom Label Designer App, Text Label App and more. **No print drivers needed!**

Free 30 Day Trial!

1. Download Brady Workstation at workstation.bradyd.com
2. Fill your workstation with individual apps or an entire suite.
3. Save time by quickly designing labels and printing to your printer. **No print drivers needed!**

Recommended:
Wire Identification Suite
 12 Apps Designed For Wire & Cable Marking Applications

For creating wire and cable labels, the Wire Identification Suite includes the right mix of Brady Workstation apps. It allows you to easily create single line labels, labels with wrapping text, and the serialization and importing of data without having to worry about alignment. If you are labeling or wrapping wires and cables, this is the suite for you!

Apps included: Advanced Import, Advanced Sequence, Batch Print, Excel Import, Flip Flop, Manage Files, Print Partner, Sequence, Template Editor, Text Labels, Label Settings.

For more information on all apps, view page 448.

Brady Mobile Apps: For Printing On-The-Go

We understand that you don't always have your PC with you to design labels. That's why we also offer two Brady Workstation Mobile Apps to enable you to quickly design labels on any iOS device, Android smartphone or Windows tablet and print those labels with your BMP®61 printer (WIFI model required).

- **Brady Workstation Mobile Text Labels** enables you to design professional text-only labels on the spot with your mobile device.

- **Brady Workstation Mobile Print Partner** enables you to complete pre-defined fields with your mobile device using protected company label templates. Use Brady Workstation on a computer to create your own template and then open the template on your mobile device within the Brady Workstation Mobile Print Partner app from either a local disk (SD-card) or a cloud location, like Google Drive.

TLS2200® & TLS-PC Link™ Owners:

The TLS2200® and TLS-PC Link™ printers have been discontinued for the new and improved BMP®61 printer. But Brady continues to manufacture and stock label materials, ribbons and accessories for the TLS2200 printer. In fact, most of the TLS2200 label rolls are also compatible in the new BMP®61 printer.

1 Label Roll Design = 3 Printers*

Most TLS2200 label rolls are also compatible in the BMP61 and BMP71* label printers.

View all label rolls and compatibility on the following pages.

Your TLS2200 Printing Solution:

TLS2200 Label Rolls..... page 336
 TLS2200 Ribbons..... page 354

* Compatibility with BMP71 requires use of the BMP71 black media adapter and BMP71 firmware upgrade 1.13 or higher. View page 357 for more information

** Each printer requires its own printer-specific ribbon.
