ML80K |  **CFIA**

Cotton/Poly Inspectors Gloves

Inspectors gloves are designed to protect products from fingerprints, hand oils, scratches or other types of contamination. The lightweight, cotton/poly knit fabric in our inspector gloves is form-fitting, and all three styles are hand-to-hand reversible for longer wear. They can also be used as a glove liner beneath gloves - especially rubber - to absorb perspiration. Available in knit-wrist style, they are fully washable and can be bleached. CFIA approved for food handling.
