Installation Instructions

Arlington's no-spin ferrule allows the Zero to 90 connector to be secured to the conduit while fully assembled. To install, simply loosen the tightening nut and screw onto conduit. A positive liquid-tight seal is formed by the pressure sensitive internal gland as the nut is tightened. The sealing ring assures a liquid-tight seal between the fitting and box.

Adjusts for ALL ANGLES... from 0° to 90°!

To adjust the angle simply loosen the center nut, twist to the correct angle, and retighten.
