LEVEL JACK

HOW DOES IT WORK?

Alignment tabs reach across wood/metal studs to level low voltage outlets with A.C. boxes.

NO TAPE MEASURE • NO LEVEL REQUIRED

Available in 1/2", 5/8" and 1" rise

If you're fussy about your rough-in layout, the Level Jack makes life easy. If you're not, no one will notice because you can't screw up with the Level Jack.

Just clip it on to the AC box and screw it down. No level, no tape measure, no special boxes, no special fittings required. Level Jacks fit most AC boxes.

ELASCO PRODUCTS

Our Ultra Guards Collection can be used from light duty to heavy duty projects.

Elasco Dropover: Single channel that is 4 inches wide by 1 inch tall. Offered in a black color and solves your basic needs in the office or on site.

Elasco's UltraGuard collection cable guards come in standard 3-foot lengths. If your projects needs are to go in multiple directions, our 45 degree right angled turns assist in configuring your layout.

The LiteGuard collection offers 1" to 1.38" size channels. While smaller in size and weight, these products are still designed for significant load bearing strength. Commonly used in vehicle or pedestrian settings, the LiteGuard collection provides invaluable protection.
