

DESCRIPTION

The Luminous HE recessed ambient fixture features efficiencies greater than 90 percent and a refreshing look using frosted acrylic diffusers. The luminaires are offered as 2'x2', 2'x4' or metric in 1, 2 and 3 lamp T5/T8 configurations. Side and center diffusers are regressed for a bold architectural detail. A unique center panel design allows for various shielding options, with simple access to lamps and ballast for easy maintenance. At 3-3/4" (95mm), the Luminous housing is shallow plenum, and a subtle air return option is also available. High efficiency and an all acrylic rectilinear design make Luminous HE an excellent choice for all commercial and institutional architectural applications.

SPECIFICATION FEATURES

A ... Construction

Low profile housing constructed from die-formed 20-gauge cold rolled steel.

B ... Reflectors

Precision tooled, high reflectance (97%) metal reflectors allow for easy access to ballast compartment.

C ... Finish

Durable, low gloss, white, high reflectance powder coated acrylic finish.

D ... Electrical

120, 277, 347 or Universal Voltage electronic ballast. Fixtures and electrical components certified to UL and CUL standards. Damp location rated.

E ... Shielding

7/8" regress center frame with optional lay-in center diffusers and 1/2" regress semi-captive frosted acrylic side diffusers.

F ... Mounting

Standard flange design works with most lay-in ceiling types. Integral pryout tabs secure luminaire to ceiling grid from above. Fixture offers tie-in locations for tie-wire on all corners, consult local code for appropriate tie-wire recommendations. For Sheet Rock Specify Metalux DFW series dry wall frame-in kit, ordered separately from Metalux. For 2x2 order Metalux part# DF-22W-U, for 2x4 part#: DF-24W-U.
