

Bolt-out™ PENETRATING LUBRICANT

This heavy-duty, non-chlorinated formula penetrates and lubricates seized parts while inhibiting further rust in a wide range of temperatures.

APPLICATIONS:

- Disassembly of seized bolts, nuts, mechanisms, pins, bushings, etc.
- Loosening of hoist, pulley blocks, hinges
- Eliminating squeaking noise from moving parts
- Temporary protection against corrosion
- Maintenance, repair, overhaul, re-building
- Plant shut-downs
- Fleet maintenance

FEATURES:

- Microscopic "Moly" particles provide excellent lubricity
- Displaces moisture, silicone-free
- Effective from -20°C to 250°C (-5°F to 482°F)
- Inhibits further rust

Ordering Information

Description	Size	Order No.	MSDS
Aerosol	400 ml (332g)	53-D 892	L-08E
Sprayer	500 ml	53-D 893	L-26E
Liquid	20 L	53-D 897	L-26E

ACCESSORIES:

Air Force refillable sprayer	53-M 122
Industrial pump sprayer	53-L 120
Replacement trigger sprayer bottle 500ml	53-L 332

Rock'n Roll™ CERAMIC ANTI-SEIZE LUBRICANT

This innovative, inert, non-toxic, metal-free white lubricant provides long-term protection against corrosion and prevents seizing of assemblies even under extreme conditions.

APPLICATIONS:

- All threaded components, bushings, press fits
- Particularly recommended for stainless steel and nickel plated components
- High temperature, high pressure applications
- Chemical plants, power plants, refineries, foundries, automotive

FEATURES:

- Non-hazardous, non-carbonizing, environmentally-safe
- Contains no toxic heavy-metals, clean-to-use
- Safe on all materials, long lasting, water-resistant
- Ceramic technology is effective up to 1400°C (2500°F)
