HOLESAW KIT (830Q)

Quick Change Hole Saw Kit for 1/2 through 2 Conduit

Image
Unavailable

Cat No: 50028065

UPC No: 783310028062

Description

- "New arbor allows for rapid mounting or removal of hole saws
- Faster, easier slug removal
- Drill pilot hole without saw: Eliminates the "bite" when saw crashes into the steel. Provides better ergonomics - reduces stress on wrist, arm and hand. Eliminates obstructed view from hole saw
- Only one arbor required from 7/8 IN to 6 IN (7/16 IN shank recommended for hole saws above 2-1/2 IN)
- Works with recessed light and carbide grit hole saw products as well
- Adapters re-usable to minimize costs
- Universal - works with any brand hole saw
- Kit contains Bi-metal holesaws for 1/2 IN through 2 IN conduit sizes "
