

## SNOW AND ICE MELTING CONTROLS AND ACCESSORIES

### MODELS

### SNOW AND ICE MELT CONTROLS

PRODUCT #	DESCRIPTION	VOLTS	AMP.
A19QSC-4C	NEMA 4X electro-mechanical thermostat with 20 ft. (6 m) capillary	120-240	22
A421ABC-06C	NEMA 1 electronic thermostat with 19.5 ft. (6 m) capillary	120-240	10
A421AEC-02C	NEMA 4X electronic thermostat with 6 ft. (2 m) capillary	120-240	10
A99BB-600C	19.5 ft. (6 m) silicon PTC temperature sensor cable for A421 series (-40 °C - 105 °C)	--	--
BRI-GFI-75	GFCI with 75A contactor	120-600	75
BRI-GFI-100	GFCI with 100A contactor	120-600	100
BRI-GFI-200	GFCI with 200A contactor	120-600	200
CDP-2	Interior controller and display for DS series	--	--
DS-2C	Aerial mounted controller with sensor to detect humidity and temperature	100-277	30
DS-224C	Low voltage aerial mounted controller with sensors to detect humidity and temperature	22-28VAC/VDC	30
DS-4C	Aerial mounted controller with sensor to detect humidity and temperature 2 x 30A	100-120 / 200-240	2 X 30
DS-5C	Aerial mounted controller with sensor to detect humidity and temperature 2 x 30A	100-120 / 200-240	2 X 30
APS-3C-120V	Automatic snow and ice melting system control	120	24
APS-3C-208-240V	Automatic snow and ice melting system control	208-240 1ph	24
APS-4C-208-240V	Automatic snow and ice melting system control	208-240 3ph	50
APS-4C-600V	Automatic snow and ice melting system control	600 3ph	50
EUR-5A	24V controller for snow and ice melting systems c/w RCU-3 remote control unit	21-28VDC	1
GF-PRO	NEMA 4X dual sensor controller for snow and ice melting systems with GFEP	100-277	30
23832-HOUSING	Ground sensor housing for HSC-24 and SIT-6E	--	--
HSC-24	Ground sensor to detect humidity and temperature (requires 23832-HOUSING)	--	--
LCD-8-100-240V	Aerial mounted snow and ice melting controller	100-240	3/16
PD-PRO	NEMA 4X dual sensor controller for snow and ice melting systems	100-277	7/30
RCU-3	Remote control unit for APS-3C, PD-PRO and EUR-5A	--	--
RCU-4	Remote control unit for APS-4C, SC-40C and GF-PRO	--	--
SC-40C-208-240V	Satellite contactor for modular snow melting control with GFEP	208-240 3ph	50
SC-40C-600V	Satellite contactor for modular snow melting control with GFEP	600 3ph	50
SIT-6E	Ground sensor to detect humidity and temperature for APS control panel (requires 23832-HOUSING)	--	--
SNOW-OWL	Aerial mounted snow sensor	24	--

Complete features for each thermostat and control are available in the Controls section of this catalog.

### MODELS

### HEATING CABLE ACCESSORIES

PRODUCT #	DESCRIPTION
BRIPPS-75	75 ft. (23 m) galvanized steel cable clip strip for concrete and gutters
BRISK-1 <sup>1</sup>	Splice kit for TXLP/1 single conductor heating cable
BRISK-2 <sup>1</sup>	Splice kit for Snow-Mat and Snow-Melt twin conductor cables
HT-2-SIGN	Lamacoid snow melting warning sign

<sup>1</sup> Complete features of these products available in the Accessories section of this catalog.
