Weight	2 lbs
Charge Time	30 Minutes
Torque	175 in-lbs
Chuck Size	1/4" Quick Change Hex
Trigger Lock	Yes
Capacity in Steel	1/2"
Capacity in Wood	1/4"

Overview

The compact screwdriver with more power, more speed and the longest runtime in its class. Delivering 175 in-lbs of torque, the M12™ Cordless Lithium-Ion Screwdriver is powerful enough to drive 130 3" screws in a single battery charge. It provides the speed to finish jobs faster, and leverages Milwaukee's lithium-ion technology for full-day

runtime on the job. With a lightweight, ergonomic design, this cordless tool fits comfortably in tight workspaces as well as a pocket or tool belt.

The screwdriver features a metal gearcase for jobsite durability, and an LED light to illuminate dark spaces. The quick-change chuck allows for fast, one-handed bit changes, while the variable speed trigger provides increased control, especially when working in small spaces or at awkward angles. The kit includes two M12™ REDLITHIUM™ batteries, a 30-minute charger, a standard #2 Phillips and a flat bit, and carrying case.
