

BAND SAW BLADES

EXTREME METAL BAND SAW BLADES

OVERVIEW

Our new Extreme Metal Band Saw Blades deliver exactly what you need for daily job site use – More Cuts and Less Blade Changes. An aggressive variable pitched tooth design gives you the versatility to cut more metal thickness with one band saw blade. The portable band saw blade’s versatility pairs with 3X longer life in stainless steel. Each blade gives you more cuts resulting in fewer blade changes. The band saw blade also gives fast, clean cuts in common materials, delivering you the performance you are looking for in a single blade. These blades are available in Deep Cut (44-7/8"), Compact (35-3/8"), and Sub-Compact (27") sizes.

FEATURES

- More Cuts. Less Blade Changes.
- Fastest cutting blade in thin, hard metals
- Aggressive tooth design for 2X Faster cuts in thick metals

CARBIDE HOLE CUTTERS

STEEL PLATE CARBIDE HOLE CUTTERS

OVERVIEW

Specifically designed for hand-held operations in materials up to 3/8" thick, these carbide-tipped Steel Plate Hole Cutters stay sharper longer than High Speed Steel or Bi-Metal Hole Saws. They produce Drill Press quality holes even in hand-held operations. For cutting materials over 3/8" up to a depth of 1/2", a drill press is recommended. When cutting depth is over 1/4", use HAWG WASH™ cutting fluid to keep cutting surface cool and lubricated. HAWG WASH™ fluid is available in 16 ounce bottles (49-32-0081). One bottle makes one gallon of lubricating solution.

FEATURES

- Clean Holes: Drills burr-free holes
- Long Life: Carbide tips stay sharper longer than high-speed steel or bi-metal cutters
- Versatile: 1/2" cutting depth
