

BNC Compression Connectors

Features

- New 360 degree clear site window for easy visual insertion verification before compressing the connector.
- New internal design for better RF performance and easier cable insertion.
- Nickel-plated, brass-construction for superior corrosion resistance
- Moisture-inhibiting rear seal design
- For 5MHz to 3GHz applications including CCTV and Broadband
- Color coded band for series identification: Red - RG-59; Blue - RG-6/6Q
- Standard 1/4" x 1/4" cable prep/strip required
- Use with 30-793, 30-603, 33-632 compression tools.
