1-3/8" HOLE DOZER™ with CARBIDE TEETH

Our MILWAUKEE® HOLE DOZER™ with Carbide Teeth is the best hole saw solution for metal and multi-material applications. The HOLE DOZER™ provides 50X life in extreme metal & multi-material cutting compared to other bi-metal hole saws. A tough carbide grade is combined with a durable 4TPI tooth design, yielding the best durability and longest life in stainless steel, abrasive material and fastener-embedded wood applications. The HOLE DOZER™ has a cutting depth of 1.62", allowing clearance to handle cuts in a wide range of materials. Thermoset coating on the saw reduces friction and drag during cutting, generating cordless efficiency for faster cutting in all applications. The material slug is easy to remove with The Plug Jack™ T-Slot. Plug Jack™ enhances user productivity by providing the best access and leverage to remove material slugs. All HOLE DOZER™ products are made in the USA.

INCLUDES:

(1) 1-3/8" HOLE DOZER™ with CARBIDE TEETH (49-56-0712) (/Products-Repository/North-America/Accessories/Hole-Saws/Carbide-Tipped-Hole-Saws/Hole-Dozer-with-Carbide-Teeth/49-56-0712)

Where To Buy

KEY FEATURES

Milwaukee carbide teeth technology

4 TPI carbide teeth design gives best durability and longest life in extreme applications

Thermoset coating reduces friction and drag, increasing overall speed and cordless efficiencies

Plug-jack T-slots enhance user productivity by providing best access and leverage to remove material slugs

SPECIFICATIONS

REVIEWS

Cuts stainless steel, fastener embedded wood, cement board, fiberglass, plaster, asphalt shingles and more

For the toughest applications where bi-metal hole saws cannot cut

Includes: one 1-3/8 in. hole dozer with carbide teeth

PRODUCT SPECIFICATIONS

Length 2.13"

Width 1.37"

Height 1.375"

Weight 0.22 lbs

Diameter 1-3/8"
