

Low Profile IN BOX™ for New Brick Construction

Recessed electrical box with weatherproof-in-use cover for new brick construction. Non-metallic cover and base. Accepts most single gang wiring devices and uses standard indoor wall plates or a GFCI cover plate. Box and white cover are textured/paintable. UV rated plastic for long outdoor life.

DBHB1C

FEATURES AND BENEFITS

- IN BOX's one-piece assembly replaces the installation of an electrical box, siding block, and bubble cover assembly
- Built-in anchor tabs seat IN BOX sleeve into mortar for a super secure installation
- Installs in the wall, so less of it shows outside
- Installed, disposable, mud cover extends all the way over the flange, providing maximum protection during construction
- Install option: Cover is removable for easier device installation
- No gaskets required

Bug Plugs ship installed in all IN BOX styles to seal unused cord hole openings.

Replacement covers available on page K-17.

PATENTED. ADDITIONAL PATENTS PENDING.

IN BOX for new brick includes...

Box with weatherproof-in-use extra-duty cover, installed bug plugs, (1) standard duplex, (1) standard GFCI face plate, installation screws, (1) NM cable connector, and an in-place, disposable mud cover.

Installation Shots

Oversized, installed mud cover offers maximum protection because it extends over the entire flange.

Completed installation with weatherproof-in-use extra-duty cover. DBHB1C shown.

Note: Meets 2014 NEC Section 406.9; for the protection of exterior outlets which require the use of an extra-duty weatherproof while-in-use cover for all outdoor 15 or 20 AMP receptacles.
