

# 5-3/8" 30 Teeth Ferrous Metal Circular Saw Blade

48-40-4070

## What's Included

(1) 5-3/8" 30 Teeth Ferrous Metal Circular Saw Blade (48-40-4070)

## Features

- Dry - No lubricant required, saving time and money with less mess
- Cool - No extreme heat buildup preserves blade life and allows handling the work piece immediately
- Clean - No burrs eliminates secondary operations saving time and money
- Lasts up to 25x longer than abrasive blades

## Specifications

<b>Pack Qty</b>	1
<b>Diameter</b>	5-3/8"
<b>Arbor Size</b>	20mm
<b>Number of Teeth</b>	30

## Overview

MetalTech™ circular saw blades were specifically designed to exceed the expectations of contractors for blade life, cut quality, and speed in the most demanding metal cutting applications – without a lubricant. A hand-tensioned, hardened alloy steel body extends blade life and delivers the highest quality cuts available. Carbide tipped teeth with Alternate Top Bevel grind shear through metal leaving burr-free, cool-to-touch cuts. Designed for use with the M18™ Cordless 5-3/8" Metal Saw, these blades feature a thin kerf that reduces the amount of drag and resistance while cutting, resulting in more cuts per charge.
