## M18™ ROVER™ Mounting Flood Light

★★★★☆ 4.0 (2) [Write a review](#)

The most versatile flood light for any task. The M18™ ROVER™ Mounting Flood light is designed to work in any workspace, jobsite, and on any surface. It has two powerful magnets allowing users to mount this light to almost any metal surface. It also has a 2" spring loaded clamp giving the user the ability to fix this light to piping, dimensional lumber, jobsite equipment, and cabinetry & doors. These hanging features are paired with a folding rotating light head design allowing our users to direct the light to their workspace to increase productivity. The M18™ Rover™ Mounting Flood Light puts out 1500 lumens of high quality light and runs up to 20 hours with a M18 XC 5.0 battery pack giving users a powerful flood spread and all day runtime. It is impact resistant up to 9' allowing it to take a drop and keeping working. Its high quality LEDs never need to be replaced and are backed by a limited lifetime warranty.

**Good light but 1 flaw.**

Review 1

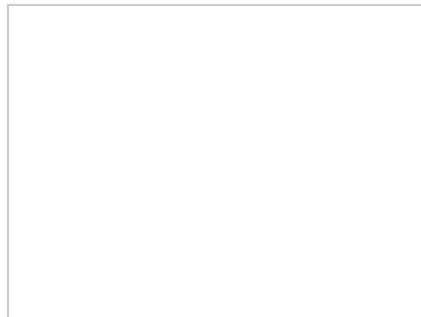

Votes 8

This is a good work light except for 1 problem. When you have the light hanging from the magnets you are limited on the adjustment of the light. You can not move it in all directions. If the pivot point were on the other side you would have the ability to move it in all directions.

I owned a Milwaukee 2361 light. I loved it. Used it for work (professional plumber), camping and outings. However, I lost it on a jobsite. I know, should have had a one key tick on it. Bought the upgraded 2365 Rover light. AWESOME LIGHT. I have used it now several times and it works great. The only con is when you use an extended battery you can't grab the handle very well. Overall though, the magnets and the clamp work great. This light is also crazy bright. Would recommend this light.

**Purchased As Gift:** No

**Yes**, I recommend this product.
