

Quality Products. Service Excellence.

Four Post Mounting Sliding Shelf *RSUS Series*

Up to 130 lbs (59 kg) Weight Capacity

Features

- Constructed of 16 gauge steel.
- Easily gain access to non-rack mountable equipment in a server cabinet or 4-post rack.
- Requires two (2) pairs of mounting rails.
- Can be used as a surface shelf or capacitive tray.
- Heavy-duty ball-bearing slides included
- The slides feature a stopping mechanism, preventing the shelf from accidentally falling out of the slide tray.
- Up to 130 lbs (59 kg) in weight capacity.
 - Slides are tested to BIFMA Standards with load capacity @ 12 times/minute for 55000 cycles minimum.
- Rugged textured powder paint finish.
- TAA-compliant for GSA Schedule purchases.
- RoHS and REACH compliant.
- Manufactured in North America.

Note: The mounting of this shelf requires 3U of mounting space and is not designed for product mounting directly above or below.

Accessories

- Mounting Hardware
- Extender Bracket for Sliding Shelves
- Rack Equipment Installation Tool
- Hook and Loop Roll
- Chassis Sliding Rack Rail Kit
