4.00-4.49	2206-014	P400-DE	12070	10	46

All mesh is available as double weave or stainless steel. Consult factory for availability.

WIDE RANGE STRAIN RELIEF GRIPS

Strain Relief Grips are used on cable to prevent pull-out, damage resulting from flexing and to control arc of bend. Grips are made with a single weave, galvanized steel mesh and aluminum fittings. A gasket is used to provide a seal from dust, filings and other foreign material.

Cable Range	Part #	Description	Fitting Thread Size	Mesh Length
Insulated - NPT Thread				
.22- .32	7303-001	SR-022	½"	3¼
.30- .43	7303-002	SR-030	½"	3¼
.40- .54	7303-003	SR-040	½"	4¾
