

## ILSCON® Spade Terminals Standard Vinyl Insulated

- Spade configuration
- Color coded
- Funnel wire entry
- Brazed barrel
- Vinyl insulation
- Manufactured from high strength copper alloy
- Electro-tin plated
- UL Listed for 600 volts, 75° C
- Same benefit as fork configuration, but with the added benefit of sides that are able to lie flat against barrier portion of terminal blocks
- Provide easy wire range identification <br>#18-22 AWG Red <br>#14-16 AWG Blue <br>#10-12 AWG Yellow
- Offers maximum conductivity
- Provides low contact resistance
- Stronger crimp connection that will not split open, prevents wire pull out
- Smooth wire insertion into barrel
- Provides corrosion resistance and strain relief
- Ensures reliability for copper conductor <br><br><i>All wire sizes, unless noted otherwise, are American Wire Gauge (AWG)<br>Tested to UL 486A/B, UL File E6207</i>
