Combination Wire Plier

★★★★★ 4.0 (8) Write a review

Milwaukee 6 in 1 Combination Pliers feature a revolutionary, forged dual head design for wire stripping and needle nose functionality. A unique reaming design is integrated into the pliers head for smoothing out rough edges of metal pipe, and a curved blade design allows for clean cuts through larger wire sizes. These pliers have the capability to cut #6 and #8 bolts and feature a swing-lock design for fast one-handed operation, and won't open when stored in a pouch or backpack. Milwaukee 6 in 1 Combination Pliers deliver maximum productivity for the trades. The Milwaukee 48-22-3079 is perfect for the toughest of jobsites. Milwaukee stands behind their product and offers a Limited Lifetime Warranty with all combination pliers. The Milwaukee 48-22-3079 includes (1) 48-22-3079 Combination Plier.

Comfortable

I've upgraded to these. I REALLY like the feel of them I almost didnt by these because I dont like the spring action, but I'm sold now. I like using these to work with repair low voltage wires. Why is there NO crimper? All the basic ones have them

Yes, I recommend this product.

Poor quality control

I thought these would be a nice heavy duty alternative. I am very disappointed. The pivot is so sloppy that the cutters will not bypass at times preventing them from closing all the way. Because of this they don't do a very good job of stripping either. The screw cutters will only cut 1/4" or longer, an unfortunate result of the heavy duty design.

No, I do not recommend this product.

Best wire strippers purchased

Santa Cruz, Ca

I can only compare these wire strippers to the similar Klein models and boy are these buttery smooth. The machining on the tool is great and the functionality is awesome. Plus it just fits like a glove in your hand.

Great tool!

A slight but solid upgrade to the original. Has the capability to strip up to 8 awg now and is WAY more balanced than competitor equivalent. Less metal around the grip means safer for rework and other possible live situations. The new lock doesn't catch unintentionally like the first gen which is a plus. All in all a great tool have yet to find any faults.

⊕ Pros: Balanced, Better Lock, Great grip, Sharp

● Cons: None

Purchased As Gift: No

Yes, I recommend this product.

Best wire strippers ever

I bought these combo pliers a couple months ago and I love them. They feel so comfortable in your hand. The handle is slim and does not have a bulky feeling in your palm. I use them for everything. I especially like the cutting edge because the two sides slide past each other making it really easy to cut through many things.

+ **Pros:** Comfortable, Romex Slide-stripping, Solid Wire, Stranded Wire, Tight Spaces
Purchased As Gift: No

Yes, I recommend this product.

Awesome tool

Awesome wire stripper and the fact they are a pair of nice ridge somewhat needle nose pliers and not some flimsy halfass pair like some I've had to deal with are great so nice in fact that they sprouted legs and walked right off my tool box and never saw them again I miss them dearly.

****NON-INSULATED****

Beware these are non-insulated. I am not sure why you would make wire strippers that are non-insulated. They need to outline this in the description. I bought these assuming they were insulated.

No, I do not recommend this product.

I'm HVAC tech for the last 26+ yrs, I switched from Klein initially for the cost, these are really great tools, I just love the strippers, lineman's, insulated screw drivers and crimpers. Unbelievable love them and so very impressed

Yes, I recommend this product.
