

# Metal Cutting Lubricants

## Coolcut™ METAL CUTTING LUBRICANT

**High performance metal cutting lubricant stands up to pressure and heat to reduce tool wear, prevent tool breakage, increase production rates and improve surface finish.**

### APPLICATIONS:

- For all machining operations: drilling, sawing, tapping, milling, reaming, broaching, nibbling and shearing
- Suitable for steel, stainless steel, tough alloys and all other ferrous and non-ferrous metals.

### FEATURES:

- Reduces friction and heat for longer tool life and better finish
- Allows increased feed rates and higher speeds to save time
- Contains no chlorinated waxes or chlorine

### Ordering Information

Description	Size	Order No.	MSDS
Solid stick	300 g	53-B 013	L-22E
Aerosol	400 ml	53-B 002	L-01E
Squeeze bottle	350 ml	53-B 003	L-09E
Liquid	5 L	53-B 006	L-09E
Liquid	20 L	53-B 007	L-09E
Liquid	208 L	53-B 008	L-09E

### ACCESSORIES:

Spout for 5 L pail	53-L 113
Spout for 20 L pail	53-L 207
Spout for 208 L drum, 3/4"	53-L 208
Spout for 208 L drum, 2"	53-L 209

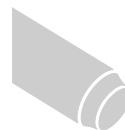

### TECH TIP:

Cutting tools and work pieces can easily be cleaned with water-based degreasers such as Gold Matrix All Purpose or solvent-based degreasers such as Slap Shot.

**Coolcut metal cutting lubricants are available in three formats. Choose the one that better responds to your specific needs.**

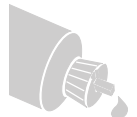

#### Solid stick

Wax like formulation in a push-up tube. Ideal when working on inclined, vertical and overhead surfaces.

#### Liquid

Squeeze bottle with handy flip top nozzle for easy application directly to the cutting site.

#### Aerosol

The most convenient method for applying lubricants. No mess, accurate spray puts the lubrication where you want it.
